General Badge Requirements

During the meeting it was voted on that the current number badges that everyone is supposed to wear and be visible while using any of the ranges are no longer required.

General Range Information

As a reminder, this is a cooperative club. It takes everyone's help to take care of the ranges. All ranges are now stocked with supplies/tools to fix and replace target backboards in every house. If you see issues with the target backboard(s), please fix it/them.

Taking trash out of the range houses is also a member responsibility. There are dumpsters located at each range. It only takes a few minutes to clean up and if you see the trash can getting full, please empty it.

There is no dedicated staff to take care of these two tasks. Only you can make your club better.

If there are problems with buildings, locks or fences please let the range chairman or a club officer know.

General Lock and Combination Information

It has been noticed that some members have been opening the combination locks at the ranges for entry and only changing one of the tumblers to lock the gate back up. This is not a safe practice as anyone can come up and look at the lock and over time could easily put together what our combination is. We have already had a case of vandalism at the Sanford range this year. Please help out and roll all of the lock tumblers to a random number when you're done. Thanks...

News Letter

Due to the coming cold months ahead and unforeseen issues with sending out this newsletter via e-mail, it will only be posted on the website till next spring. Then hopefully the technical issues will have been resolve and distribution via e-mail will start back up.

Committee News

SANFORD RANGE:

Remember this is your club. Your dues may pay for what we have but without you or someone else to volunteer and clean up after you it is not going to be done. Be proud of what we have and take care of it.

We are a volunteer club, with out you and your help there is no club.

BERWICK RANGE

The bathrooms are now closed till spring. The porta-potty will still be available through the winter.

If you see a target board that needs to be replaced, replace it. It's only a couple of screws. If the trash can needs to be emptied, then take it over to the dumpster and empty it.

Please do not put targets **on or against** the 2x4s or upright posts. These are the frames that hold the target boards and cost a lot more to replace. Do your part and remind your friends and others if they forget.

Please pick up your Brass—Even if you don't Reload!!!
